RECESS RULES:

The More the Merrier

Hey, should we go and play in the sandpit for recess?

You read my mind. Let's just wait for Aroha.

Oh, do we have to? I hoped it would be just us today. I don't even know Aroha that well.

Yeah, Aroha is cool, and she loves playing the same games we do.

But I only like to play with you. You're my best friend.

You're my best friend too, but Aroha is my other best friend.

That's ridiculous! How can you have more than one best friend? That is not possible.

It's simple. I love spending time with you, and I love spending time with Aroha. You are both very different, but I love that.

The more friends you surround yourself with, the more people you have to play with.

But I don't enjoy playing with others as much as I enjoy playing with you.

I love playing with you too, but what if I'm away one day? Who would you play with then? Trust me, it is much better to make lots of friends.

Hmm, that is a good point.

I would probably have to play with someone else or I would be all alone.

See! Give Aroha a go. You might just make another best friend, too.

Yippy dippy!
